SAGE ON GILROY.

Mayor Gilroy will not be well pleased to hear that Russell Sage laughs at him and figuratively snaps his thumb and middle finger under the executive nose. The late Jay Gould did not leave his old "pard" any of his hard gold dollars. But it is evident that he be-queathed him a liberal share of his hard cheek. Mr. Sage says, in substance, that the Manhattan Elevated Railroad Company knows its own bustness and will decide the question of the acceptance or rejection of the Rapid Transit Commissioner's proposition as it sees fit, without the fear of "civic revenge or punishment." He chuckled over the remark that he would like to know just how the Mayor proposes to "break down the monopoly of the Manhattan Company," and slyly added that he did

not see Mr. Gilroy's name in the list of Commissioners of Rapid Transit. Mayor Gilroy is a man of his word. It the occasion should arise Mr. Sage would probably learn more than he would care to know about the meaning of what he calls the Mayor's "threat." But the occasion will not arise, simply because the Manhattan Company has been holding off only for the purpose of beating the city as much as possible in the matter of compensation, and will not take any more chances of losing the valuable new franchises and privileges now within its reach.

Neither Mayor Gilroy nor anybody else could beat the Manhattan off with a club from accepting the scandalously inadequate terms finally and unfortunately for the city agreed upon by the dis-

It is possible that the confession of the man Suarez is a plain tale somewhat adorned. But Europe has had enough experience with Anarchism and dynamite to render her extremely sensitive over every fresh appearance of the combination.

Nobody is to be punished for the late brutal lynching of Sam Smith at Decatur. Ill. The lynchers were in the community, and the M. Kratch and L. McCarthy Grand Jury, which has just risen, received pointed instructions on the matter from Judge Vail. No indictments were found, however. Thus a heavy blow is struck at law and order through the very instrument devised to sustain them. The

They next entered the house of Mrs. Keers, a neighbor of Fireman Van Wart, and who is employed as ticket agent at Woodside Station. It is thought that they were frightened away while ransacking this house, as they did not take anything of much value with them.

At Bartow they robbed the railroad station, but did not find any money there. They stole a gold watch belonging to the station master.

The Woodside Park station was robbed May 6 of \$20 in money and \$10 worth of tickets. Another robbery occurred there about a year ago, when the thieves secured \$250 in cash and \$40 worth of tickets. It is thought that the three robberies were committed by the same gang.

Women's Hiding Places. The curious places in which women

conceal their valuables is every while brought to light by some accident to the same. It was discovered at a fire for instance, that the savings of years of a poor woman had been lost by the destruction of a stuffed armchair, in the crevices and folds of which she had tucked away the bills. Again, a woman going away for a day, hides box of valuables in the ash barrel and finds on her return that some member placed it on the sidewalk, from whence it had been emptied of contents. Women delight in hiding riches in old stockings, in piece bags, in cushion linings, under a board in the floor, in books, any and everywhere least expected and least safe

Shall our towels be damask or huckaback? That is also a matter of taste. And it is a matter of complexion. Huckaback and Turkish are desirable for bath use. But for the face use the damask. With that you may rub the skin without producing a batteredup feeling that is certainly not advisable for the complexion. It is well to persistently rub the face, but it is never improved by scouring.

Get the "new" out of your towels before putting them to use. It is indeed treating a guest ill to offer him a towel with the "store" starch upon it. Let the family take the "new" off your "company" linen. This may be hard on the household, but the wiping guest will love you more than if you permitted him to assist in the job.

Iron your towels on both sides. They are more agreeable to use when smoothly laundered, and when so polished give a tinge of thoroughness to your house keeping.
